

Mohamed Essam Ibrahim

 Mohamed Essam Ibrahim |  me98essam@gmail.com |  +20 101 715 5028 |  Cairo, Egypt

SUMMARY

Computer Science student specializing in **Cybersecurity**, with hands-on experience in **Penetration Testing** and **Offensive Security**. Actively completing structured learning paths on **Hack The Box** and **PortSwigger Academy**, developing practical skills in network enumeration, web application security testing, and vulnerability assessment. Experienced with Linux environments, reconnaissance techniques, and security automation, with a strong interest in advancing toward professional **Penetration Testing** and **Red Teaming** roles.

EXPERIENCE

ERU Cybersecurity Club	Offensive Technical Member (WEB PenTest Specialized)	2026 – Present
• Deliver hands-on sessions on Web Application Penetration Testing • Teach exploitation techniques for vulnerabilities such as XSS, SQLi, and CSRF • Guide students through practical labs using tools like Burp Suite • Mentor junior members and support their learning path in cybersecurity		

EDUCATION

B.Sc. in Computer Science and Artificial Intelligence (Level 3)	Expected 2027
The Egyptian Russian University (ERU), Badr City, Egypt	

CERTIFICATIONS

- **Python** – Certified Python, *huawei*
- **Intro to C++** – Certified C++, *sololearn*
- **Intro to Java** – Certified Java, *sololearn*
- **Ubuntu Linux Essentials** – Mahara-Tech
- **Cloud Foundations** – AWS Academy

TRAINING & LEARNING PATHS

Hack The Box Academy	Penetration Tester Path (CPTS)	Ongoing
	Wifi Penetration Tester Path (CWPE)	Ongoing
Portswigger	Web Security Learning Path (Burp Suite, Web Attacks)	Ongoing

PROJECTS

Brute Force Tool | *Python*

- Python tool built for authorized security testing and lab environments. It automates authentication testing with features such as CSRF token handling, session management, SOCKS5 proxy support, User-Agent rotation, redirect detection, and memory-efficient processing of large wordlists, making it ideal for studying web authentication workflows and security defenses.

Library Management System | *Java*

- Implemented core functionalities such as book management, user registration, and borrowing/returning system.

SKILLS

Technical Skills

- **Penetration Testing:** Web App Testing (OWASP Top 10), Network Pentesting, Enumeration, Exploitation, Post-Exploitation
- **Security Tools:** Nmap, Burp Suite, Metasploit, Wireshark, Nessus, Acunetix, SQLmap, FFUF, Hydra

- **Networking & Systems:** TCP/IP, Firewalls, Linux Administration (Bash), Windows Hardening
- **Cryptography:** AES, DES, Hashing (MD5, SHA-1/512), Encoding (Base64, URL)
- **Programming:** Python, C++, Java, SQL, Bash

Soft Skills

Critical Thinking | Problem Solving | Fast Learning | Team Collaboration | Technical Writing | Leadership
